INTRODUCTION

Why plan?

Our Strategic Planning process is in response to the reality that these changing times of both the institutional church and society will influence the future of parishes. In the past, the directives for parish planning have come from the Archdiocese to parishes after a consultation process. In the present, we as St. Therese Congregation determined it is important to assess our own viability and direction, and present our results to the Archdiocese for their review. Knowing our need to chart a course into the future, we undertook a process to develop a Strategic Plan.

What plan?

The intent of the Strategic Plan is to provide a roadmap for the parish over the next five to eight years that will help us realize our mission and vision. As we began, we soon realized that unless there was a ‘sense of the parish’ any effort would be wasted. To get this ‘sense of the parish,’ last year we asked all parishioners who attended Mass to participate in a brief survey. Empowered by the results of the survey, which showed a solid commitment to St Therese and our vision, we proceeded to author the plan which the reader will find on the following pages.

St. Therese’s history covers over eighty years. Beginning in 1925 as just a small chapel on Bluemound Road to its current site, built in 1956, the “little flower” of Saint Therese has blossomed into a lively community of believers. Though there have been and still

are challenges for the Parish, Saint Therese has always met them under the inspiration of our patron, Saint Therese of Lisieux, following her “Little Way.” Our charism has been one of welcome and openness to all with great emphasis on human concerns of education, advocacy, and direct service as we strive to live as God’s people.

The plan is structured to expect results which will be reviewed by the Parish Council or a designated committee annually. The detail of the plans and execution are left to those parishioners or groups that are designated. The plan is not meant to be inflexible. To the contrary, if circumstances or a review dictates, the plan will be adjusted. Additionally, as a result of the annual review a new year will be added to the overall plan to keep its focus on the future.

As we follow the recommendation of “Living our Faith in the 21st Century”, we wish to express our discipleship and stewardship through this strategic plan. This plan will guide us in our efforts to continue the good work begun at St. Therese and to further the mission and vision of our parish, and to collaborate within our Cluster and the Archdiocese.

With this brief statement as to the Why and What of the Strategic Plan, the following pages detail more specifically what the plan is and the areas it covers. The document is to be owned by the Community of St. Therese, with the Parish Council having direct oversight and responsibility for its execution, range of areas, and its continued vitality.
